Both of the men were old and Mershon and Hamilton, the stage-driver were both drunk at the time. Mershon had an examining trial before Commissioner Chinn on Thursday and was discharged.

Death of a Former Citizen.

Mr. Richard H. Fleming, who resided here some thirty odd years ago and carried on the business of house painting and paper hanging, died at his home in St. Joseph, Missouri, on Thursday, October 29th. He was a brother of Mrs. Wm. McEwan, of this city, and was a prominent member of the Methodist Church.

During his residence here he met with two serious accidents which nearly cost him his life. While engaged in painting the Episcopal Church just after it was erected, he lost his footing upon the roof, fell to the ground and was so badly injured as to be confined to bed for some time. A year or two afterwards he also fell from a scaffold, while painting the new residence of the late Owen G. Cates (the house at present occupied by Judge Holt, on Campbell street), alighted upon a pile of stone and was laid up for a long time from his injuries. While a resident here he owned and occupied a house which stood upon the lot where Mrs. George B. Macklin's residence now stands.

Ben. D. Bell,

Druggist, of Lexington, Ky., says that Dr. Hale's Household remedies (consisting of Dr. Hale's Household Cough Cure, Dr. Hale's Household Ointment and Dr. Hale's Household Tea) are the best sellers he has ever had in his store. This is owing to the great merit of these popular remedies. They invariably give great satisfaction, save many doctors' bills and work wonderful cures. Everybody should use them. 25 and 50c. sizes at Carpenter's South Side drug store.

He Wilted.

At a meeting of a debating society which was held at a country school-house in this county not many moons ago, the question "which is the most destructive to the farmer's crops, the Colorado potato bug or the tobacco worm?" was up for discussion and one young man, who was on the side of the tobacco worm, arose and commenced his speech as follows:

"Mr. President, Ladies and Gentlemen: Roses are red and the violets are blue,

If you have a long green tobacco give me a chew."

Immediately a friend in the audience sent him up a bouquet made of frost-bitten green tobacco, the sight of which so upset him that he forgot his argument and sat down in great confusion.

Happy Hoosiers.

Wm. Timmons, Postmaster of Ida ville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined for that bad feeling arising from kidney and liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine. Made me feel like a new man." I. W. Gariner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c. a bottle, at P. H. Carpenter's Drug Store."

POLSGROVE'S PISTOL.

A Bloody Street Fight on Court Day.

In Which the Man Shot at was Mortally Wounded.

And Three Bystanders Received Bullets Intended for Him.

A FAMILY FEUD IN BALD KNOB SETTLED IN THIS CITY.

Monday morning, at about a quarter to twelve o'clock, a shooting affray took place on the corner of Main and St. Clair streets, whose result was one of the most bloody the city has ever known.

Four men were shot—one mortally, one seriously and two slightly wounded—by a pistol in the hands of a fifth.

Only the shooter and the one mortally wounded were engaged in the affair—and the latter was unarmed, according to the statements of those nearest him—and certainly no weapons were found upon him.

It was county court day, and an unusually large crowd was present upon that corner, the place where the streets are most thronged. No one knew of any quarrel, no high words were heard, no blows were struck, when suddenly, as thunder from a clear sky, rang out five pistol shots, short, sharp, in quick succession.

The throng was panic-stricken, and a confused rush was made for places of shelter. But quickly as the frightened people ran the bullets were quicker and three men paid the penalty of their presence upon the fatal spot.

As near as we could learn from the statements of the parties themselves and of the nearest bystanders, there were no words and no quarrel between Ambrose Polsgrove and Jerry Williamson at the time of the shooting. There had, it seems, been a family feud between the two men for some time past and it culminated when Polsgrove, seeing Williamson approaching, shouted "Don't look at me" or "Don't come near me," and commenced firing at him. Williamson's statement to Squire McDonald, made with a full knowledge of his condition, is to this effect, and it is corroborated by others.

The effect of those five shots, rashly fired in the crowd, was such a one as the shooter never intended. Three balls struck Williamson—one in the right side and two in the back, the latter coming out in the breast, one about half an inch distant from where the first shot lodged. One struck Mr. W. B. Larkin, of this city, in the back, and ranging upwards, lodging at a point in his right breast just below the shoulder. This wound is a serious one. Another passed through the fleshy part of the left elbow of Mr. Joe Williams, living just below the city on the Leestown Pike, and

also bruised the skin of his right arm, but did not have sufficient force to penetrate. This is probably one of the balls that passed through Williamson. And finally one passed through the fleshy part of the right side of Mr. Alex. Snellen, who resides on the Owenton pike, inside the city limits. Williamson was taken to the store of Messrs. Hudson, Humphries & Cassell, and for over an hour no one was allowed entrance except those having business with the affair. Drs. James, Williams and Hume did all in their power to alleviate the sufferings of the wounded man, but it was seen that his condition was almost hopeless. About one o'clock he was removed to the Harrod House, across the street, where he lingered until Tuesday morning at 10:30 o'clock and died.

The most pathetic sight was Williamson's little son, about eleven years of age, who was with his father when he was shot. With tears streaming down his face, he refused to leave, and stayed with his father until the end.

Messrs. Larkin and Snellen were removed to their homes and received prompt medical attention. Williams' injuries were slight, and he was soon walking around again, with his arm in a sling.

Immediately after the shooting Polsgrove was arrested by Marshal M. H. P. Williams, Jr., who was standing near, but was taken so completely by surprise that he could not reach him until he had emptied his pistol, and taken to the office of County Judge B. G. Williams. Shortly afterward he was allowed to walk on the streets in custody of Officer Smith, and at one o'clock he was admitted to bail in the sum of \$10,000. After the death of Williamson he was re-arrested and placed in charge of the sheriff. The examining trial was set for Wednesday morning, but was postponed until Monday next.

Both men are well known in this city. Polsgrove was formerly Deputy Sheriff, and Williamson at one time kept a restaurant in the Finco Block on the South Side. They were brothers-in-law, Williamson having married Polsgrove's sister, and it is said that the feud owed its origin to Williamson's treatment of his wife. Wednesday morning an autopsy was held upon the body of Williamson by Drs. Williams, James, Hume and Thompson and the course of the balls traced. One passed through the muscle of the right arm, entered the right side and lodged in the breast, showing that Williamson was standing with his right side towards Polsgrove when shot the first time, and the other two entered his back and came out at the breast, showing that he was going away from Polsgrove when shot the second and third times.

Immediately after the autopsy was held, Coroner Dehoney held an inquest upon the body and the jury returned the following verdict:

We, the jury, find that the dead body before us is that of Jerry Williamson, who was killed and murdered by Ambrose Polsgrove, on the 2d day of November, 1891.

Children Cry for Pitcher's Castoria.

Don't want all the Honors.

The following letter from Capt. R. S. Burnett, U. S. Engineer in charge of the work at lock No. 6, shows that he, as an honorable gentleman and splendid fellow, does not desire to take the credit for the very efficient work which has been done at that point during the past season:

U. S. ENGINEER OFFICE, SALVIA, KY., Nov. 1st, 1891.

To the Editor of the Roundabout:

Sir: Noticing the article published in your paper a few days ago, regarding Lock No. 6, Kentucky river, I would respectfully state that Major D. W. Lockwood, Corps of Engineers, U. S. A., has charge of this work; that the work has been conducted under his instructions and by his directions to its present successful state; that I have been simply in local charge of the work carrying out his instructions.

That the success of the work in detail is due to the untiring energy and ability of the following named gentlemen in their respective positions: Mr. Dan Grimes, General Overseer; Mr. Peter Beah, Master Mason; Mr. Wm. Wade, Master Stone Cutter; Mr. Mark Spencer, Master Carpenter.

The above named gentlemen are all experts in their respective callings and cannot be excelled.

Very respectfully,
R. S. BURNETT,
Assistant Engineer.

Want the Old Name.

The two Masonic Lodges of this city, Hiram, No. 4, and Esoteric, No. 52, were consolidated last winter under the name of Frankfort, No. 4, but at the first meeting after the consolidation a unanimous desire was expressed that the old charter and name of Hiram Lodge be returned to them. At the late meeting of the Grand Lodge a resolution was passed giving Frankfort Lodge the privilege of taking the old name and charter at any time within three months, and at the stated meeting to be held on the 26th inst. the membership will vote upon the question of making the formal request. Hiram was one of the original eight Lodges which formed the Grand Lodge of Kentucky, the old charter bears date of October 17, 1800, and the first Grand Master, William Murray, was a member of said Lodge, hence the desire to have the old name and charter back again.

Bought but Didn't get It.

The old Cove Spring property, from which the city drew its supply of water for nearly a half century, and upon which forty odd thousand dollars was sunk by a former city council in an effort to construct a reservoir which would hold a sufficient amount of water to supply the city at all times of the year, was put up at public auction on Monday and knocked down to Mr. John T. Buckley, his bid being \$3,100. The council, at a called meeting on Tuesday night, refused to confirm the sale and are now trying to sell it some more by the sealed bid route, and will open the bids on the 24th inst.

Robbery and Arson.

Tuesday night the machine shop of Messrs. Stephens & Gault was entered by a burglar, who worked at the combination of the safe until he succeeded in opening it, took about fifteen dollars from the cash drawer, then put a lot of cotton waste under the spigot of a cylinder oil barrel, set fire to it turned on the oil and left. The oil would not burn and the waste went out in a little while, or the building would have been destroyed.

Another Lumber Failure.

On Saturday Mr. James M. Wakefield, who has for years been one of the largest lumber dealers in this city, made an assignment for the benefit of his creditors to Messrs. John L. Scott and I. T. West. Mr. Scott

declined to qualify as assignee and Mr. John W. Gaines was substituted for him. The assets and liabilities have not as yet been ascertained, but it is hoped that he will save enough from the wreck to enable him to start in business again.

The assignment was occasioned by the failure of the R. B. Cotter Co., in Louisville, with whom Mr. Wakefield was involved to the amount of thirty thousand dollars. Every bank in the city will be caught in the failure as all of them held more or less of Mr. Wakefield's paper.

At a meeting of the creditors, held on Wednesday morning, it was agreed that Mr. Wakefield should be allowed to run the mill until all the logs now on hand are cut up, as to leave them in the water would be running the risk of their being carried off by the first rise in the river.

Mr. Wakefield is one of the biggest-hearted, most charitable men in the city, and he has the sympathy of the entire community in his misfortune.

The young gentlemen present were: Messrs. Thomas and Marvin Averill, Geo. Hunt, Harry Rodman, Vernon Clark, Robt. Mason, Woodford Longmoor and French Hoge.

Ray's Tonic.

We have for some time been publishing an advertisement of Ray's Tonic, and for the benefit of those who have never tried it for any of the ills it is claiming the medicine will cure, we want to say that the preparation is put up by Dr. J. Ed. Ray, a practicing physician of Paris, Kentucky, whom we have known personally for the past twenty-eight years. It is a prescription which he has used very successfully in his practice for years and he guarantees all he claims for his medicine. He is no quack, but a graduate of one of the best medical colleges and has long been one of the leading physicians of Paris, where he was born and raised.

Hezekiah's Surprise.

"Wal, Hiram, if this don't beat all The old way for doctors was 'kill er cure,' but here I've found a piece in this here newspaper where a doctor offers cash er cure." "It's for catarrh I wish we had it—I'd like to try him! Jest listen, Hiram! 'The proprietors of Dr. Sage's Catarrh Remedy offer a reward of \$100 for any case of catarrh which they cannot cure.' That beats all lotteries hollow! The medicine costs 50 cents—your catarrh is cured, or you get \$100! Where's my hat! I'm going right over to neighbor Brown's, to show him. I never wanted to get within ten foot of him before, but if it is the cure of his catarrh, I guess I can stand it one't." Sold by all druggists.

Grazed by a Ball.

During the shooting scrape on Monday, Dr. U. V. Williams' buggy and horse were standing in front of Messrs. Chapman & Williams' drug store, and one of the balls fired by Polsgrove grazed the hip of old Reuben, the horse, causing him either to slip in the gutter or fall down, but while he was down the old fellow wisely concluded to lay still until the firing ceased, when he got up all right without breaking anything about the buggy.

Mr. Crutcher was a brother of the late Levi T. Crutcher and Messrs. Harry and John Crutcher, of this county.

Hurt in a Runaway.

Mr. J. T. Spicer, clerk in the county store of Mr. Lee A. Owen, at Jetts Station, was returning from this city, in a spring wagon, on Tuesday, and when about three miles out on the Versailles pike his horse took fright and ran away. Mr. Spicer was thrown out of the wagon near the residence of Mr. J. Watt. Stephens and very badly injured about the head and body. He was found lying upon the side of the pike senseless and taken to Mr. Stephens' house, where he remained unconscious for several hours. When sufficiently recovered he was taken to his home near Switzer.

Ben, the Axman.

Mr. Ben. Marshall, of the firm of Meagher & Marshall, shoe dealers, was standing on the pavement in front of Col. John L. Scott's office yesterday watching workmen putting in a gutter and repairing the sidewalk where some old shade trees had been cut down in front of Messrs.

D. W. & J. B. Lindsey's office, and remarked to Col. Scott that he ought to have an old tree in front of his office removed also.

The Colonel asked him what he would cut the tree down for and grub up the stump. Ben said he would do the job for five dollars. "No," said the Colonel, "but I'll give you two dollars." "Done," said Ben, as he began to shuck his coat. He sent for an axe and had the tree down and the stump out of the way in just twenty-five minutes.

The Colonel stood by and paid him in installments—one dollar when the tree was down, fifty cents when half the stump was up and the other half dollar when the job was completed. Ben thinks he earned his money easy and the Colonel don't want any more trees cut at that price.

The term here given is one which was supposed to have been coined during the late war. It is claimed, however, that it is an old word received, perhaps of Swedish origin. Be that as it may, there is certainly no word in the English language that more forcibly expresses the action of certain pathogenic microbes which may have found their way into the blood, after the administration of Swift's Specific. Finding this sanguineous medium too warm, so to speak, for their comfort, they skedaddle through the pores of the skin, leaving the system intact. Not only does S. S. S. cause the elimination of the said microbes and the poison produced thereby, but it assists in rebuilding the waste place of the system resulting from the devitalizing and disintegrating effects of the micro-organisms aforesaid.

The eminent physician, J. Marion Sims, of New York, says: "I am convinced that Prof. Darby's Prophylactic Fluid is a most valuable disinfectant."

Reckless Shooting.

Ambrose Polsgrove, on Monday, on the streets of Frankfort, shot down his brother-in-law, Jerry Williamson, in the midst of a large crowd at the corner of Main and St. Clair streets, and wounded three other persons. Williamson is now in his grave while Polsgrove, in the custody of an officer, appears on the streets and attends theaters while awaiting his examining trial.

The coroner's jury has pronounced the killing murder, while the law-abiding citizens await the result of the final trial with mingled feelings of hope and disappointment, hopeful that the smooth current of justice may mete out to the accused such punishment as the gravity of the charge may deserve, or, if innocent, declare it as readily, but will the current of justice be permitted to flow undisturbed by passion or false sentiment?

We too soon forget the man that was slain and the violation of the law of both God and man in his taking off, and begin to look for something to excuse the slayer. When it is found, be it ever so small, the magnifying glass of interested friends' efforts and sympathy soon increase it so that it permeates the whole community to such an extent that jurymen coming to sit in the case have a preconceived opinion in favor of the accused that finds an echo in their verdict.

Mr. Polsgrove may, prior to this killing, have enjoyed a large share of his neighbors' good opinion and esteem; he may have filled acceptably offices of trust at the hands of an admiring constituency, and we bespeak for him a fair and impartial trial, the same unprejudiced consideration that would be given to the humblest and most obscure citizen in the land resting under a similar charge, no more and no less. Had the most miserable wretch belonging to the lowest class of society, in the midst of the large crowd gathered on the streets, fired the death-dealing missiles, endangering the lives of every innocent man, woman and child on the streets within their range, public sentiment would have pronounced it a dastardly act, although no death had resulted, and he would be considered especially lucky to have escaped immediate destruction.

We can not understand that any one occupying a higher station in life committing the same acts can commit an offense of less enormity.

Whether or not public sentiment will excuse the one where it would have punished the other remains to be seen, but we trust that no maudlin sentiment in this case will forestall the action of the court and jury in investigating the commission of an offense resulting in the death of Williamson and the injury to three or four other citizens who were in the presence of the fatal business on the most densely thronged street in the city.

COPIRIGHT 1880

Plain enough—the way to a clear complexion, free from blotches, pimples, eruptions, yellow spots, and roughness. Purify your blood, and you have it. With pure, rich blood, an active liver, good appetite and digestion, the hue of health follows. Doctor Pierce's Golden Medical Discovery gives you all of them. It is the blood-purifier. There's no lack of them, but there's none like this. It's guaranteed to accomplish all that's claimed for it. In all diseases arising from torpid liver and impure blood, it benefits or cures, or the money is refunded. With an ordinary medicine, it couldn't be done. But this isn't an ordinary medicine.

It is the cheapest blood-purifier sold, through druggists, because you only pay for the good you get.

Can you ask more?

Coughing before the entire mucous membrane lining the air passage leading to the lungs becomes inflamed, as it surely will be from a cough neglected. There is but one remedy that gives instant relief and cures quickly. Dr. Hale's Household Cough Cure cures every kind of cough from a simple cold to incipient consumption. 25 and 50¢ bottles at Carpenter's South Side drug store.

Death of Miss Smith.

The youngest sister of Hon. H. H. Smith, Secretary of the Commissioners to revise the Statutes under the new Constitution, died in Virginia on Saturday. Mr. Smith left Saturday afternoon to bring the remains to Elizabethtown for burial.

Delegates to State Union.

Mr. W. B. Bridgeford has been elected by the Franklin County Farmers and Laborers' Union to represent them at the meeting of the State Union, which will be held at Elizabethtown on Tuesday next, and Mr. W. T. B. South was chosen as alternate.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a cough we earnestly ask you to try it. Price 10¢, 50¢, and \$1. If your lungs are sore, chest or back lame, use Shiloh's Porous Plaster. Sold by J. W. GAYLE.

Peak's Mill.

The modest little violets that were reappearing, were somewhat blighted by the frost. Mr. Geo. Cox, accompanied by his granddaughter, Miss Harlie Bacon, left for his home in Drummond, Mont. last Monday. Mr. McKnight, the general inspector for the Richmond Mill Co., is satisfied with work done by our new mill, and left Monday. Mr. Zaack Church and Miss Nellie Bacon paid a flying visit to Louisville last Monday. Mrs. L. D. Pointexter visited relatives in Switzerland Saturday and Sunday. Peak's Mill is on a boom, a new mill, several new residences and changes of firm in dry goods store, a church almost completed, and a new blacksmith shop. Without this excitement of becoming a railroad center, personal property has increased in price, the intrinsic value of its farms is fifty to one hundred dollars per acre, and in demand. It is beautifully located in a valley of Elkhorn, surrounded by tall wooded heights that are unsurpassed by any scenery in Kentucky for color, form or grandeur.

Nice gentle rain last Wednesday night.
More frosts in October than ever known before.
Col. Charles Ruby, of Millville village, was in our city this week.
Mr. James Shaw is improving his warehouse preparatory to putting in elevators.
Mr. Benj. Eates, wife and daughter,

of Bagdad, gave Aunt Fanny Cully a visit this week. We are glad to say that Aunt Fanny is nearly well.

It was believed that we had four or five of the released Tennessee convicts camping here last Tuesday night.

Dr. Jacob Coleman, late of Vienna, Austria, is visiting his sister, Mrs. W. W. Jett.

Mr. James Spicer, who clerks for Mr. Owen, was returning from Frankfort last Tuesday in a spring wagon, when the shaft broke loose as he was coming down the hill in front of Mr. Harrison Shaw's. The horse becoming unmanageable, Mr. Spicer was thrown out with such force as to render him insensible for an hour or so. He was found on the pike and taken to the residence of J. Watt Stephens, where the kind administration of Mrs. Fatty Shaw, Mrs. Eddie Harris and Mr. Stephens soon brought him around all right. Drs. Hume and Oving pronounced no bones broken, but Jim says he's like a 60-on locomotive struck him, and he can't play base ball next Saturday.

A month or so after the great Charleston earthquake, some professor of one of the great seats of education in the east, whose name I have forgotten, wrote an article for one of the magazines, saying the effect of the great shock would be to change our climate, giving as his reason and the cause, by saying that the earth was turned on its axis, or in other words had been knocked five hundred miles farther south. It may be as he says, for it is a notorious fact that our falls and winters, have been several degrees warmer than previous to the event of the great shock; but then you scholars, who are conversant with the astronomical regions of the home of the sun, moon and stars, can tell us if the old north star is still at its accustomed place.

Bridgeport.

Messrs. J. Parrent, F. Morris and C. H. Crockett were the first to kill hogs this season. They slaughtered ten in half an hour without any of the facilities of a slaughter house.

Some unknown trespassers, who were out hunting last Tuesday, either intentionally or accidentally set fire to Mrs. Crockett's woods and damaged several acres of valuable timber. It is said that some are heedless in regard to the posting law.

Unless we have rain in a few days the prospects are that a great deal of the wheat will perish in the ground. Water for both man and beast is getting to be very scarce in this part of the country.

Quite a number from this section attended the funeral of Mr. Ed. Thomas, which occurred at his late residence last Monday.

Mr. Willie Kirk and family left for the State of Oregon the first of the week, where they will reside in the future, if all things are congenial.

Col. Thos. Hunter, in his rounds, paid a visit to our Bridgeport school last week, which is being taught very successfully by Miss Sallie Vawter.

Miss Lida Terry has returned from Louisville after an extended visit to friends.

C. H. Parrent and family, from the Forks, were in our village Friday and Saturday visiting relatives.

Special Announcement.

J. Kendall Co., Enosburg Falls, Vt. This book is now recognized as a standard authority upon all diseases of the horse, as its phenomenal sale attests, over four million copies having been sold in the past ten years. A sale never before reached by any publication in the same period of time. We feel confident that our patrons will appreciate the work, and be glad to avail themselves of this opportunity of obtaining a valuable book. It is necessary that you mention this paper in sending for the "Treatise." This offer will remain open for only a short time.

Governor's Ball.

Eight hundred engraved invitations have been sent out for the Governor's ball on the 15th, and as yet Georgetown, Richmond and Winchester have not been touched. A hundred more cards have been ordered. Only five regrets have come in, one from Louisville and the others from a distance.

Governor Brown and the ladies are certainly coming. They will be met and escorted to the Phoenix. All the State officers and their families will be here, and the regimental and field officers of the First, Second and Third Regiments. The military will all be in uniform. Dr. Castleman and wife, Dr. and Mrs. Reynolds, Dr. and Mrs. Cheatham, the Haldemans and other social leaders of Louisville have accepted. From Frankfort Dr. J. Q. A. Stewart and family, Major Stanton, etc. Trost's Orchestra will play in full evening dress. The ballroom will be decorated with military trappings. Capt. Bryant goes to Frankfort to-day to make preparations. - Lexington Transcript.

We would like to know what sort of veterans are expected from this city, and whether or not Dr. Stewart and Major Stanton will be expected to bring them along with them.

Cures for Diphtheria.

As that fearful disease diphtheria, so fatal to children, is now very prevalent in the surrounding towns, and is liable to make its appearance in this city at any time, we give the following remedies for same, which may be found beneficial in emergency.

ONIONS FOR DIPHTHERIA.

"Why don't they use onions? For goodness sake, why don't they use onions? Where do I see? I will go up there to-day and tell them to use onions!" Such were the exclamations of our mother, says the editor of the Danvers Mirror, when we reported one day that a child of Mr. G. W. Dudley was dead and the whole family including himself, alarmingly sick with diphtheria. Mother was married to these earnest and interested expressions by the use of onions in diphtheria, one of them being our sister. In these cases raw onions were placed in a bandage and beaten into a pulp, the cloths containing onions, juice and all, being then bound about the throat and well up over the ears. Renewals may be made as often as the mass becomes dry. In cases noticed the onions are a positive cure for diphtheria, deadly pain yielding in a short time to sleepy comfort. The editor adds the wish that this remedy might have a wide enough trial to fully test its usefulness.—Scientific American.

PARAFFINE IN DIPHTHERIA.

Mr. A. M. Sydney Turner, Surgeon to the Gloucester County Infirmary, informs the Lancet, in reply to inquiries, that he has treated thirty cases of diphtheria (children and adults) with paraffine, and has had the satisfaction of seeing every one recover. His plan is to ask for ordinary paraffine used in lamps, and having scraped off the diphtheritic patch, to apply the paraffine every hour to the throat (internally) with a large camel's hair brush. As a rule, the throat gets well in from twenty-

four to forty-eight hours, and with improvement in the throat the paraffine is applied less frequently, but he continues to use it for two or three days after the complete disappearance of the patches. He speaks definitely as to the therapeutic effects, but is unable to state what the chemical action of paraffine on the diphtheritic membrane is; probably the hydrocarbons in the liquid exert some powerful influence on the membrane.—Scientific American.

PINEAPPLE CURE FOR DIPHTHERIA.

One of my children was down with diphtheria and was in a critical condition. An old man who heard of the case asked if he had tried pineapple juice. We tried it, and the child got well. I have known it tried in hundreds of cases. I have told my friends about it whenever I heard of a case and never knew it to fail. You get a ripe pineapple, squeeze out the juice, and let the patient swallow it. The juice is so corrosive a nature that it will cut out diphtheria mucus, and if you will take the fruit before it is ripe and give the juice to a person whose throat is well it makes the mucus membrane of his throat sore.—Chicago Tribune.

What Cured Him.

Disturbed, disturbed; with pain oppressed, No sleep, no rest; what dreadful pest Such tortures thus ensnared him? Dyspepsia all night, all day, It really seemed had come to stay; Pray, guess you, then, what cured him? It was Dr. Pierce's Golden Medical Discovery. That is the great cure for Headache, Scrofula, Dyspepsia, Kidney Disease, Liver Complaint and General Debility. An inactive Liver means poisoned blood; Kidney disorder means diseased blood; Consumption means poisoned blood. The great antidote for impure blood is Dr. Pierce's Golden Medical Discovery. Acting directly upon the affected organs, restores them to their normal condition. The "Discovery" is guaranteed to benefit or cure in all cases of disease for which it is recommended, or money paid for it will be promptly refunded.

A DUTY TO YOURSELF.

It is surprising that people will use a common, ordinary pill when they can secure a valuable English one for the same money. Dr. Acker's English pills are a positive cure for headache and all liver troubles. They are small, sweet, easily taken, and do not gripe.
